Work Experience

2015 - Present

Gravitare Design
Vancouver, WA
& Remote

Art Director & Senior Visual Designer

The majority of my work is centered around designing responsive web layouts that enhance the user experience & drive business results for each of our clients. The process can include collaborating with cross-functional teams, strategy & information architecture, art direction, creating mood boards, wireframing pages, & building Wordpress websites with Elementor. I often communicate directly with clients, producing a variety of other work including logo redesign, brand guidelines, icons, digital marketing ads, business cards & print design,
